Education

Ph.D., University of California Santa Cruz, Earth and Planetary Science, 2009-2015

Advisor: James Zachos, *Committee:* Christina Ravelo, Paul Koch, Richard Zeebe

Thesis Title: The response of seawater carbonate chemistry to rapid carbon injection during the Paleocene-Eocene Thermal Maximum

B.A., Carleton College, Northfield, Minnesota 2003-2007, Geology major

Professional Appointments

Richard Foster Flint Postdoctoral Fellow at Yale University, 2015-Present

Collaborators: Pincelli Hull and Noah Planavsky

IODP Expedition 371 (Tasman Paleogene tectonics and climate) July-September 2017

Shipboard sedimentologist

Teaching and Research Assistant at UC Santa Cruz 2009-2014

IODP Expedition 342 (Newfoundland drifts) June-August 2012

Shipboard sedimentologist

Research Staff, Lamont-Doherty Earth Observatory: 2007-2009

Supervisor: Bärbel Hönlisch

Publications

Awards & Grants

- Post-Expedition Award following IODP Expedition 371, 2018 (\$15,000): "Paleogene carbon and silica cycle perturbations in the Tasman Sea"
- *Funded*: NSF Paleo perspectives on Climate Change: "The role of pCO₂ in the orbitally-forced climatic cycles of the Cenozoic." Lead proposal author & named Postdoc Penman, PI's Pincelli Hull, Howie Scher, Andy Ridgwell, Sandra Kirtland Turner. \$337,319.00 (Yale), Period of Support 5/1/2017 – 4/30/2019
- *In revision for 2nd submission, 2018*: NSF Marine Geology & Geophysics: "Sedimentary records of Paleogene silica cycling." PI's Donald Penman, Sandra Kirtland-Turner. Universally positive reviews from first submission (2017) available upon request.
- Flint postdoctoral fellowship from Yale University's Department of Geology and Geophysics, 2015 (2 years salary and \$10,000 research funds)
- Post-Expedition Award following IODP Expedition 342, 2013 (\$15,000)
- Named doctoral student, contributed pilot data and proposal text to "Establishing the Magnitude of Sea-Surface Acidification During the Paleocene-Eocene Thermal Maximum," NSF Ocean Acidification, PI's: Jim Zachos, Bärbel Hönlisch, Richard Zeebe 2013-2016
- 2012 UCSC Earth & Planetary Science Waters award for top thesis proposal (\$7,000)
- Outstanding Student Presentation Award, 2011 AGU Fall Meeting
- NSF scholarship for Urbino Summer School in Paleoclimatology, 2010
- LDEO's Climate Center grant (2009) to evaluate and calibrate $\delta^{11}\text{B}$ in brachiopod calcite as a paleoproxy for seawater pH (\$8,000)

Invited Talks

- GFZ Potsdam (May 2018)
- Hong Kong University (February 2018)
- AGU 2017, Session: Evaluating Tectonic and Volcanic Forcing of Earth's Climate
- AGU 2016, Session: New insights into the Paleocene-Eocene Thermal Maximum
- Department of Earth Sciences, University of California Riverside (April 2016)
- Yale Geology & Geophysics Postdoctoral Seminar (May 2016, May 2017)
- Lamont-Doherty Earth Observatory Geochemistry Seminar (Nov 2015)

Teaching and Mentoring

- Teaching assistant for 6 classes at UC Santa Cruz (2009-2015), including California Geology (3x), Evolution of the Earth System (2x)
- Organized and led Yale graduate reading groups on a) sedimentary records of silica burial through earth history and b) the Middle Eocene Climatic Optimum
- Guest lecturer in Yale graduate and undergraduate classes (2016-2018), designed and led carbon cycle modeling exercises for graduate class
- Mentored undergraduate theses of Christine Baba (UCSC 2014), Chris Bowman (Yale 2016), Mahima Kumara (Yale, in progress)

Professional Involvement

- Co-convenor, 2018 AGU Session PP-015: Evolution of the marine silica cycle
- Proponent, IODP Drilling proposal 917-pre: "Revisiting the Mesozoic to Pleistocene in the Southeastern Gulf of Mexico: Plate Tectonics, Ocean Circulation, and Climatic Evolution" submitted April 2017 and selected to be developed into full drilling proposal
- Editorial Board, IODP Expedition 371 Expedition Report, January 2018
- Manuscript peer reviewer for *Nature*, *Nature Geoscience* (3x), *Geology* (5x), *EPSL* (3x), *Paleoceanography (& Paleoclimatology)* (4x), *G³*, *P³*, *Geophysical Research Letters*, *Chemical Geology*, *Climate of the Past*, and several other journals
- NSF proposal reviewer (P2C2 program, CAREER program)
- European Research Council proposal reviewer

Selected workshops and short courses

- MagellanPlus drilling proposal workshop: The North Atlantic Igneous Province continental break-up magmatism and impacts on global warming during the Paleogene," Kiel (2018)
- Australasian IODP regional planning workshop (2017)
- IODP workshop: "Demystifying the IODP proposal process for early career scientists," University of Texas Austin (2017)
- Friends of the PETM workshop at Arizona State University (2016)
- Paleo-CO₂ proxy development workshop, Santa Cruz, (Co-convenor with Gavin Foster and Eleni Anagnostou, 2014)
- Cenozoic History of the CCD, organized by Andy Ridgwell, Santa Cruz (2012)
- cGENIE Earth Systems modeling summer workshop, Santa Cruz led by Andy Ridgwell (2012)
- Boron week at NOCS: Training in $\delta^{11}\text{B}$ analysis by MC-ICPMS with Gavin Foster, University of Southampton (2011)
- Urbino Summer School in Paleoclimatology, Urbino Italy (2010)

Selected conference presentations (* = presenter)

Interactions between tectonics, silicate weathering, and climate explored with carbon cycle modeling, **Penman, D.E.**, *Caves, J.K., Ibarra, D.E., Winnick, M.J., AGU Fall Meeting 2017 (invited talk)

*New records of the global weathering response to the PETM from the North Atlantic, **Penman, D.E.**, AGU Fall Meeting 2016 (invited talk)

- *Hyperthermal-associated North Atlantic silica burial throughout the Lower Eocene (talk), **Penman, D.E.**, Hull, P., Kirtland Turner, S., Keller, A., D'Haenens, S., Goldschmidt Conference 2016
- *The effects of weathering and circulation on the marine silica cycle during Eocene hyperthermals, **Penman, D.E.**, Ridgwell, A., International Conference on Paleoceanography, Utrecht, 2016
- *Global Ocean acidification during the PETM: new records from the Southern Ocean and NJ Margin, **Penman, D.E.**, Babila, T., Kelly, D. C., Rosenthal, Y., Bralower, T. J., Zachos, J. C., GSA Annual Meeting 2015
- *New insights into PETM recovery processes from Expedition 342 sediments, **Penman, D. E.**, IODP Expedition 342 Post-cruise Science Meeting (Talk)
- *Silicate weathering and North Atlantic chert deposition during the Paleocene-Eocene Thermal Maximum, **Penman, D. E.**, AGU Fall Meeting 2015
- *Cretaceous-Palaeogene experiments in Biogeochemical Resilience, Henehan, M. J, Hull, P. M., **Penman, D. E.**, Planavsky, N. J., Schmidt, D. N., Rae, J. B., Thomas, E., Huber, B. T., AGU Fall Meeting 2015
- *Direct evidence for CCD over-compensation in the aftermath of the PETM (talk), **Penman, D.E.**, Kirtland-Turner, S., Sexton, P., Cameron, A., Boulila, S., Norris, R.D., Zachos, J.C., Röhl, U., Westerhold, T., IODP Exp. 342 Scientists. AGU Fall Meeting 2013
- *B/Ca of planktic foraminifera documents ocean acidification during the Paleocene-Eocene Thermal Maximum (talk), **Penman, D.E.**, Zachos, J.C., Hönisch, B., Zeebe, R.E., Bohaty, S. at 2011 AGU Fall Meeting 2011
- *Boron proxy evidence for surface ocean acidification & higher pCO₂ during the PETM (talk) **Penman, D. E.**, Zachos, J.C., Hönisch, B., Eggins, S., Zeebe, R.E. (2011) at Climate and Biota of the Early Paleogene conference in Salzburg
